Dear Fellow Collector,

This sale is somewhat larger and later than originally anticipated. Hopefully there is something for everyone. Check the cross-index and individual lots carefully. The next sale will contain a beautiful collection of St. Louis World's Fair Exonumia and an excellent selection of choice Masonic Chapter Pennies and Exonumia, along with more Civil War, Hard Times, etc. However I do need more material in other areas. Please write or call immediately for consignment terms (or I will purchase outright). Depending upon purchases and consignments, the third sale will have a closing date in February or April of 1978. Subscribe today to insure timely delivery of all my sales.

SUBSCRIBE: Catalogs are sent by subscription only. Sorry, but high costs force me to make a nominal charge. The next three issues with Prices Realized will be sent for only \$3.00 (less than my costs). Send your check in with your bid form and this P.R. is free.

HELP! Your comments and suggestions are invited. Do you like the Bidding Rules, the overall format, Grading, type of tokens, etc. offered, Estimates, etc.? What kind of improvements do you suggest? What sort of tokens do you want (not currently offered)?

BIDDING RULES — PLEASE READ CAREFULLY

1. By submitting bids you agree to the following terms of sale.
2. Bidding Deadline is 10 p.m. 28 Nov. 1977. All mail bids must be received by 28 Nov. Please allow sufficient time for the Post Office to deliver your bids. Late bids may be called in at 815-226-0771 until 10 p.m. No information on current high bids will be given out. Bids will be reduced (See rule #11).
3. All items are guaranteed to be genuine and as described. Should any item prove to be a copy, replica or counterfeit, it may be returned at any time for a full refund.
4. No tie bids, earliest postmark gets the lot. Bid in odd amounts: \$5.18 vs. \$5.00.
5. Minimum bid on every lot is \$3.00, except those graded less than Fine or damaged.
6. I reserve the right to withdraw lots and reject unrealistic bids.
7. All lots will be sent AIRMAIL INSURED on values up to \$200 and REGISTERED over \$200. Postage, insurance and packaging will be added to all lots, as well as 5% sales tax for Illinois residents. Bulky items will be sent by insured UPS. Specify alternates.
8. Auction sales ARE NOT approval sales! All returned lots MUST BE MADE WITHIN FIVE DAYS of receipt. Your errors are your responsibility and ours are ours. The only legitimate reason for returning a lot is if it has not been correctly described. Any return must be insured for full value and reason for return given. No lots removed from the original holders may be returned for any reason.
9. If you are not sure what a lot is, please write or call for detailed information such as a rubbing (free with SASE) or photo. A black & white 3½x5" print of any lot (obv. & rev.) is available at \$1.00 each; \$5.00 minimum order.
10. Bidders may limit purchases by specifying the amount they wish to spend. List bids in the order of preference. Bids will be executed in that order until the purchase limit is reached. You may also place a single bid on any group or partial grouping of lots, such as all from one state, while also bidding on individual lots.
11. Items will be sold to the highest bidder at a 10% advance over the second high bid. Bids under \$10.00 will not be reduced.
12. All invoices are payable within FIVE DAYS after receipt.
13. Most photographs have been enlarged to show details. Please note they are not equally enlarged. Sizes given are usually in millimeters.
14. The Guide Price (\$XX) is to be used as a GUIDE ONLY. These estimates are based on my research and knowledge and are the estimated market prices. Please feel free to bid higher or lower. Bids will be reduced.
15. In a very few cases I have duplicates of a lot. I reserve the right to sell a duplicate in the same grade as the lot description to the underbidder.
16. No deposit required.

POSTSCRIPT

The star of the sale was PA 985A-1a, the rare Wilkes Barre, realizing \$1840.00 in very active bidding, setting a new record price for a Civil War Token. Interest continues to be strong for the Wisconsin CWT and Masonic Chapter Pennies, with high grade tokens of all types (common and rar) also eagerly sought. Demand was also high for the Dog Tags, encased Dollars, Prison and Miller Tokens, the Assay Medal and So-Called Dollars. I do need material for the third sale (scheduled to close in April 1978) and will purchase outright or accept for auction all quality exnumia. Ship, and if my cash offer is not satisfactory, I'll return postpaid and refund your postage. Or write for my competitive consignment terms.

*Two reminders: All bids must be received by the closing date. Nor will the closing date ever be extended without notice for any reason. Please mail your bids early! Bids from six persons were rejected due to late arrival. Also, while some auctioneers have given out bid status information, absolutely no information (not even hints) will be given out on high bids until after the sale closes. You may bid with confidence, as bids will be reduced whenever possible. For example, 73% of the bids over \$10 on the WI CWT were reduced, some by hundreds of dollars.

WISCONSIN CIVIL WAR TOKENS

This is the second part of the Wisconsin Civil War Tokens from the Watson-Fuld and Green Collections. Many of the finest known WI CWT in the Watson-Fuld collection were photographed for use as Plates in the Watson WI CWT book and the Fuld's Storecard book, and are marked here as WATSON or FULD PLATE TOKEN. They are not pictured in this catalog as it is assumed all interested collectors have a copy of each (both are available: see Book List next to the Bid Sheet, catalog center pages). The guide prices are the result of much research and are considered conservative. Please feel free to bid higher or lower with the confidence that all bids (over \$10) will be reduced to 10% over the second high bid.

Detailed information on grading can be found in the introduction to the first sale. Photographs of obverse and reverse are available at nominal charge.

MASONIC CHAPTER PENNIES AND EXONUMIA

MASONIC PENNIES By L. Frank Smith

Some of the Masonic pennies are made of silver, some of bronze; others are of copper, aluminum, brass and white metal. Some are very artistic in design and others very plain. Yet they all represent the same thing---"a day's wages."

Future generations will examine the plain ones and think that we did not demand much for our day's labor. But, on the other hand, when they see the real artistic pennies they decide that some of us were very well paid.

The Masonic penny is carried by most Royal Arch Masons as a "pocket" piece. While some may cost more than others and be more artistic in design, to the Mason who carries it, it represents a day's wages earned.

Each penny should have on one side a keystone with the letters H. T. W. S. S. T. K. S. engraved in a circle on the keystone. The letters represent the "mark" of an ancient Grand Master who wrought at the building of King Solomon's Temple. The space within the circle of letters is left for the owner to engrave his personal "mark."

In ancient times stones were marked in order to insure their being placed in the proper place in the building. Later on the craftsmen became more numerous and some very inferior work was turned out. The marks then served as a means of tracing the workman who had cut the stone. As time went on each craftsman had his mark registered and no other workman used it. He took his "mark" on it. From this beginning came the present-day custom of Royal Arch Masons carrying a penny with their mark on them.

I have found Masonic penny collecting a very interesting hobby. I have contacted many interesting persons with whom it has been a pleasure to correspond. The hobby has made me dig deeper into the mysteries of Free Masonry, thereby making me far better posted on the subject than I would have been otherwise.

BOOKS: Two books are available; the King reprint (1972) on Masonic Chapter Pennies and a recent book German Freemason Medals, etc. 1945 - 1976, by Dr. Ernst-G. Geppert (in German).

INTRODUCTION

The following offering of Masonic Chapter Pennies and Exonumia is the second half of a superb collection from an Illinois Masonic Historical Library. This collection of almost 900 different Pennies is the largest and finest ever to be offered individually at a mail bid sale. Included are choice and rare Pennies from every state listed by King, over 60 from Canada and many from World Chapters. Important highlights of this sale included three RARE Pennies never offered before in any known sale: The Scottish Paper Mark Penny, Lot 493; the GEM Hawaiian Penny in SILVER, Lot 558; and the Card-board Canadian Penny, Lot 970. Other scarce and seldom seen items offer the astute bidder a rare opportunity to acquire individual pieces from this important historical collection.

ABBREVIATIONS & NONMENCLATURE

Except for the Foreign Pennies at the beginning all Chapter Pennies are listed alphabetically by state and by ascending chapter number and then by the following method and order in each lot: Chapter name and Number, Town name (abbreviated to initials where the same as the Chapter name) and Date of incorporation within (). PLATE, & SHEKEL Pennies are so noted, with Size in millimeters. Details such as type of Mark, unusual Design information or Historical information is given next. Last is Condition. Occasionally a Minimum Bid (MB\$XX.) or Suggested Bid: (\$XX.) is then given. When a Variety (Var. A or B, etc.) is given, a different variety either appears next or was in the first sale.

The order of features is always from innermost to outermost: "Triple Tau, Delta, Circle" would mean a Triple Tau within a Delta, all within a Circle. The Chapter name and other information is usually outside the features stated and is not usually spelled out. In addition the following standard abbreviations are used:

TT/D: Triple Tau within a Delta.
GREEN-BRASS: A light green brass wash over brass or copper.
W-M: White-Metal or Nickel.
Obv.: Obverse-usually the side with Chapter Name.
Rev.: Reverse.
Var.: Variety A, B, etc.

PRICES & MINIMUM BIDS

Based on prices realized at previous sales and various fixed price lists, the following general guide to pricing of the Pennies is considered reasonable. You may, of course, bid higher or lower with confidence, as your bids WILL BE REDUCED, when possible (see Bidding Rules). A few rarer Pennies and most items of exonumia have been given suggested or minimum Bids. There are two general MINIMUM BIDS (MB). A \$3.00 MB applies to all lots, and all SILVER lots have a \$6.00 MB, except those graded lower than Fine.

As a general rule most Pennies from Western and smaller states will realize between \$8 and \$20, with few below \$7.00. Most other U.S. Pennies will generally run \$5 to \$12. Special interest items such as those of George Washington or other famous people, the much sought Shekels, silver or other off metals, those with interesting marks, or particularly beautiful Pennies will usually realize \$8 to \$15 each. The choice condition Canadian Pennies are scarce and will average \$14. Good Luck!

MEDALS OF THE UNITED STATES MINT

THE FIRST CENTURY 1792 - 1892

by
R. W. JULIAN

\$37.50
Postpaid

The Token and Medal Society proudly announces publication of R.W. Julian's long awaited book on U.S. Mint medals of the 19th century, a result of several years research into government and museum archives. The last work on this subject, written in 1878 by J.F. Loubat, covered some eighty official medals. Julian's work, in comparison, lists over 570 public and private pieces struck at the Philadelphia Mint during its first 100 years, 1792-1892. Destined to become a standard, this book is a must for numismatists with special interests in this area, and an indispensable reference for any medal collector interested in the history of the U.S. Mint or the development of American medallic art. Features to look for in this accomplished work include:

Features include:

- Hardbound, 6 x 9 inch dimensions, over 650 pages
- Nearly 20,000 listings — political tokens, military, saloon, mining, amusement, vending, parking, encased, wooden nickels and more
- All listings priced except unverified prices, restrikes, copies, and die trials
- Simple to use...abbreviations
- Over thirty full page plates
- Maverick index

\$15.00
Postpaid

- 9 x 11 inches in size, over 475 pages
- Elegantly hardbound in cloth with embossed cover and printed on quality heavyweight paper
- A detailed history of the medal operation at the Philadelphia Mint
- Over 570 medals listed
- Over 1100 illustrations including medals, mint structures, officials, artisans, operations and more
- Available background information and discussions for each medal struck at the Mint
- Mintage figures and lists of officials
- Cross reference to previous works on the subject
- Index of artists and medallists

EDKINS' CATALOGUE OF COAL COMPANY STORE SCRIP Compiled by Donald O. Edkins.

Describes in detail and gives approximate market value, through a rarity scale rating, of every piece of coal company store scrip token that has been submitted to the author for listing purposes over a five-year period, up to December 31, 1976.

Five hundred pages (approx.) containing over 10,000 described tokens, with many pages of illustrations. Indexed for easy attribution. A monumental work, long awaited by experienced and novice collectors. A valuable addition to the numismatic libraries of collectors, dealers and institutions.

"CHITS, CHISLERS & FUNNY MONEY" by Michael G. Pfefferkorn and Jerry F. Schimmel. 1976. 258 pages, 24 plates, illustrations in the text, soft cover. The first comprehensive catalog of the state tax tokens of the United States, this book is destined to be the standard reference work of its field. All tax token collectors will find this catalog an invaluable guide for years to come. A separate 27-page priced checklist will also be included with the catalog

"BECKER THE COUNTERFEITER" by Sir George Hill. 111 pages, 19 plates, soft cover. A counterfeiter of ancient and medieval coins, Carl Wilhelm Becker has long been considered one of the best of his time. Many of his efforts are as near to the originals as anything produced by his successors. The plates in this work fully illustrate Becker's genius at the art of engraving. A most interesting biography accompanies the text detailing his sales of counterfeits to some of the most respected collectors of Europe. Today, original Becker counterfeits are occasionally offered for sale, and are in considerable demand by modern-day collectors.

U.S. CIVIL WAR STORE CARDS Second Edition

by George and Melvin Fuld

Civil War tokens were issued by the millions during the war years of 1860-65. Store cards, the subject of this volume, were issued by individual merchants, almost exclusively in the northern states, in great numbers. This second edition includes a great number of corrections and additions which have been published in periodicals since 1972 and new discoveries tabulated by Jon Harris from the collections of the American Numismatic Society.

A comprehensive Numismatic Museum is maintained for the general public and collector alike.

collectors here to stay join the ana

The ANA does not buy or sell coins. Its revenue comes from annual dues paid by members, supplemented by gifts, bequests and contributions. Any net income from various activities is used in behalf of its members and for the advancement of numismatics.

the American Numismatic Association, founded in 1891, is the largest and most active organization for coin collectors in the world. It is a nonprofit organization chartered by Congress. Most of its 30,000 carefully selected members are adult residents of the United States, but several hundred live in other countries, and its Young Numismatists are active and enthusiastic. The ANA welcomes to membership all persons of good character, 11 years of age and over, who have a sincere interest in collecting and studying coins, paper money, tokens, medals and other numismatic items. The dues are low; the prestige and services that go with the privilege of membership have great value.

The low-cost silver or bronze membership medal bears the member's name, number and date enrolled.

the door is open

The best buy in numismatics today is a membership in the ANA. If you fill out the attached application blank, you will be taking a big step toward more knowledge, plus more fun and prestige from your hobby of coin collecting. Detach the application, get the required signature of a member who will recommend you, and mail it with your remittance to:

DETACH AND MAIL

at home

ANA membership makes it easier for you, as a collector, to make a serious study of the area of numismatics that interests you—to build up a real knowledge of your specialty while you are building your collection.

- **The Numismatist**, the Association's official magazine, is mailed free each month to all members except Associates. The editor publishes the best feature articles available on popular phases of collecting, identifying, and caring for money, tokens and medals. Most issues have 240 or more pages, with top quality illustrations. You will read of newsworthy men and collections, new coin issues of the world, new books, fakes that can hurt your collection, and editorial comments and Association news. **The Numismatist** accepts advertisements from members only, whose reliability is outstanding and who agree to abide by the ANA Code of Ethics and Bylaws.

- When you are a new member, you receive without charge a copy of the 48-page **Introduction to Numismatics**, and the **Dictionary of Numismatic Terms**. Reprints of many articles from past issues of **The Numismatist** can be purchased.

- Use of the largest circulating numismatic library in the world is one of your privileges as a member. The only charge for borrowing reference books is the postage round-trip from Colorado Springs.

memberships

A \$5.00 application fee for Regular and Club membership is payable with the first year's dues with the application. This fee is not required for Juniors (11 under 18 years) nor for Associate or Life Members. Associates wishing to transfer to Regular membership must apply therefore as new applicants but retain their original numbers. Dues for the second calendar year of a new member are adjusted to give credit for any months missed the first year. Only persons 18 years of age or older are eligible for Life membership. Junior Members become Regular Members automatically at age 18.

Names of applicants (but not necessarily addresses) are published in **The Numismatist** in the second issue following date of receipt. If no objections are received within 30 days, the applicant is admitted and a membership card for the current year is sent to him. In case of objections, the procedure specified in the By-laws is followed.

DUES, EFFECTIVE JUNE 1, 1976

Non-member annual subscription (U. S., Canada, Mexico)	12.00
Subscription (all other countries)	15.00

- The Association, in conjunction with Colorado College, conducts a week-long seminar every July covering a variety of subjects. The modest tuition includes room and board, field trips, lectures by noted authorities, and use of college facilities. Write for further details.

- Several insurances, such as on numismatic collections, exhibits, hospital money plan and life, are available to members. Being group insurance, the costs are lower than on comparable individual policies. All plans are administered for ANA by a long-established insurance agency.

and abroad

ANA membership makes it more fun to collect coins—to display what you know and have, and make friends who share your interest.

- If you give talks or make displays, your local coin club can send for ANA certificates of award for you. You can widen your activities to include state or regional coin shows and conventions.

- Each year for five days in August, the ANA national convention is held in some major city where there are enough hotel rooms and floor space for displays and the dealers' bourse. There you will attend a national auction, see world famous collections, compete for display awards yourself, listen to educational forums, meet collectors from everywhere, attend the business and award sessions of your Association, and enjoy social events. In the 100-table bourse room you will meet dealers whose names are already familiar to you and see their choicest items for sale. Local ANA members arrange trips and parties, and the convention ends with the traditional banquet.

- For young collectors, the ANA reserves special categories in the National Coin Week competition and in convention exhibits, publishes well-written articles, and gives awards for outstanding numismatic accomplishments.

- While not a guarantee of integrity, ANA membership does establish you as a collector of record and serves as an introduction to other members. The low-cost silver or bronze membership medal is engraved with a member's name, number and date enrolled. You can order membership buttons and jewelry and an emblem to use on stationery or as a rubber stamp.

coin clubs

Local coin clubs, and state and regional organizations, can hold membership in ANA. They receive **The Numismatist** and have all the privileges of membership. In addition, they receive the monthly **Club Bulletin**, an illustrated booklet of 20 or more pages containing news and items of special interest to clubs. They can borrow visual educational slides and films to show at meetings, the only charge being the postage. A number of slide sets, with typed commentary, are ready for use.

- A member club can order award certificates for its members, "past-president" medals, and ribbons for coin show awards, all at approximate cost. National Coin Week participation is open to clubs as well as to individuals.
